

Fact Sheet

Hawai'i's Technology Leader.

Hawaiian Telcom provides integrated communications, including High-Speed Internet, data, video entertainment, and local and long distance voice services that keeps Hawai'i connected to the world.

Supported by our next-generation fiber network and 24/7 state-of-the-art network operations center, we provide critical infrastructure and connectivity to Hawai'i's most important institutions.

Our portfolio of business solutions includes cloud applications, data center, security consulting and strategy, and much more to meet the needs of businesses of every size.

Our wholesale customers – long distance, wireless and Internet service providers – purchase high-capacity connections, wireless backhaul, fiber and IP-based services, enabling them to serve Hawai'i customers.

Our employees are committed to providing the highest level of service to our customers and to supporting our communities statewide. We are committed to investing in Hawai'i's future.

Fast Facts

Network Operations Center
Honolulu-based 24/7 world-class NOC ensures network reliability.

Local Employees
