

How To Connect To Your Wireless Network

Microsoft Windows 7

1. Click on the **wireless icon** located in the bottom right hand corner of your desktop screen

2. Locate and select your wireless network from the network list by clicking on the name of the network

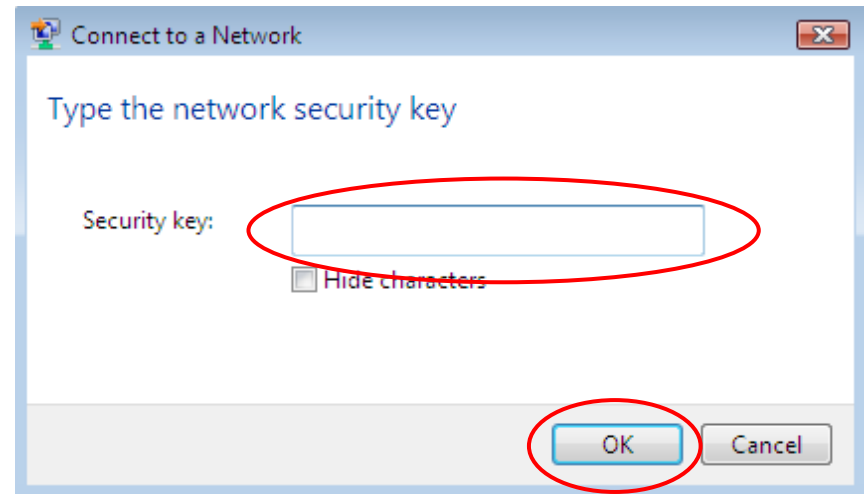

3. Click **“Connect”**

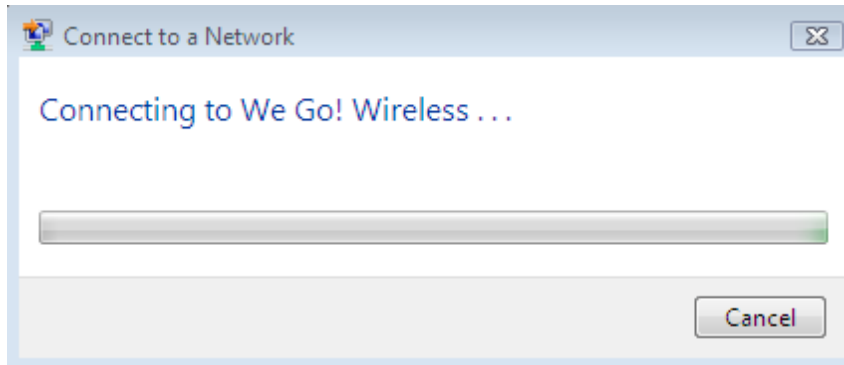

4. Enter your network **password**

5. Click **“OK”**

6. Wait for your computer to connect to your wireless network

7. Choose the type of network you are connected to (this step is optional)
8. To skip this step, click “Cancel”
