

1. Click the **Start** button and click **My Computer**

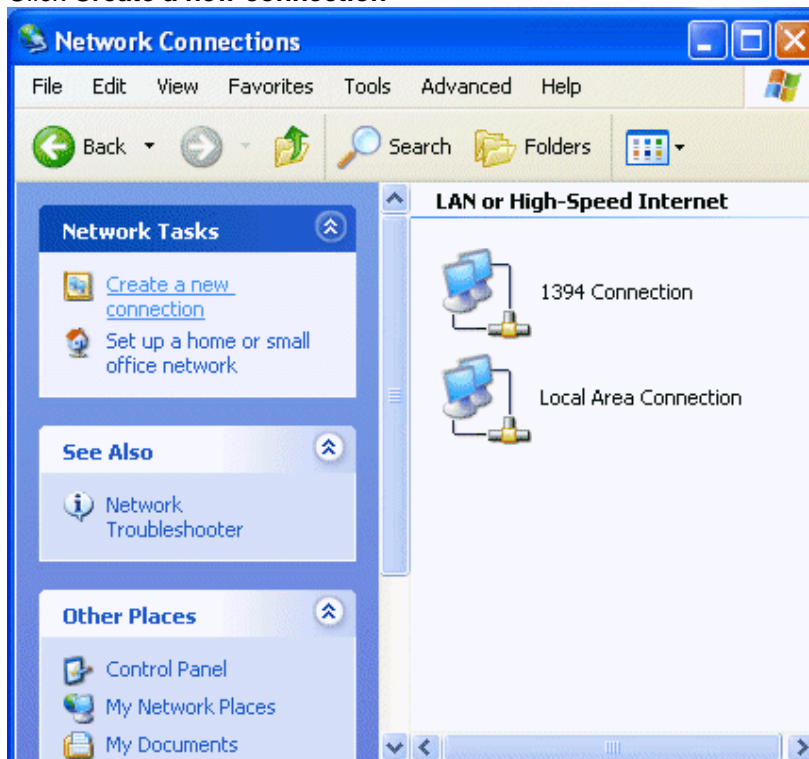

2. Click **My Network Places**

3. Click **View network connections**

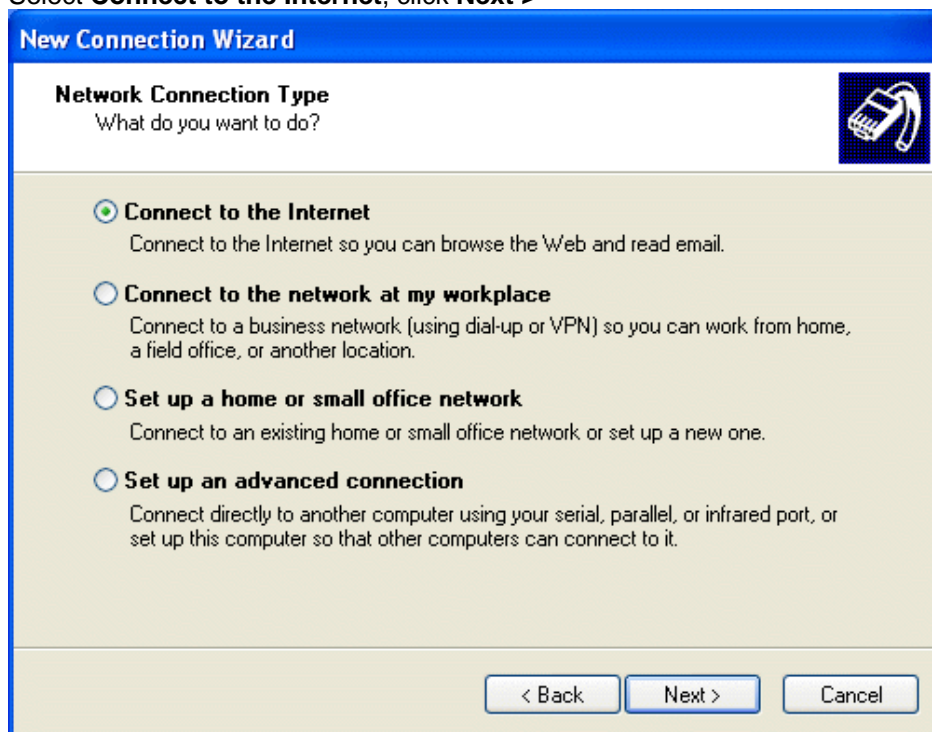

4. Click **Create a new connection**

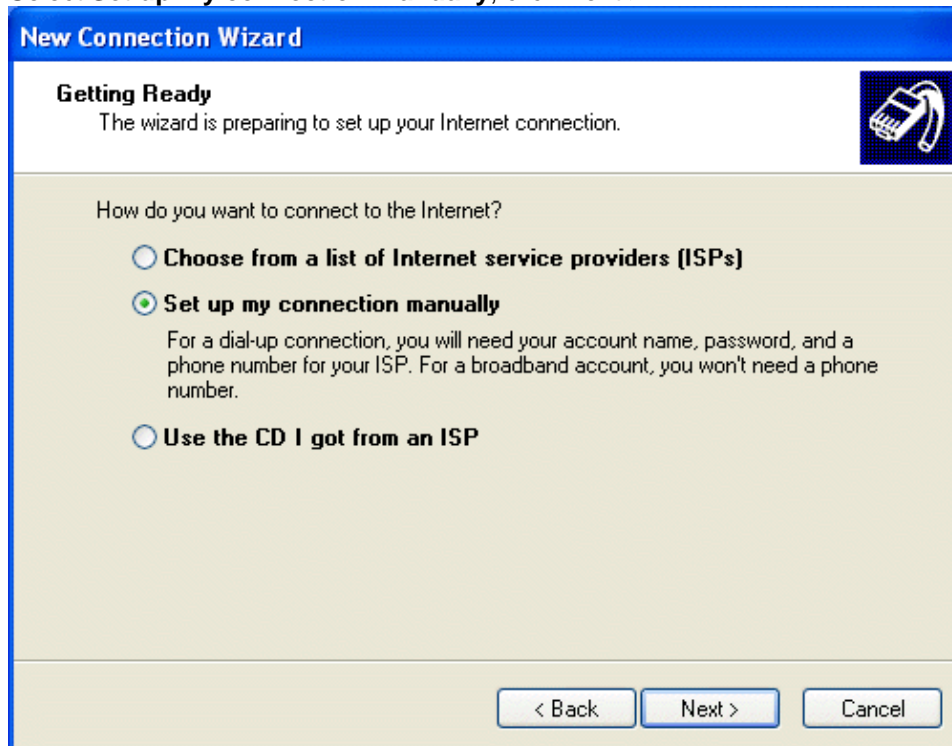

5. Click **Next**

6. Select **Connect to the Internet**, click **Next >**

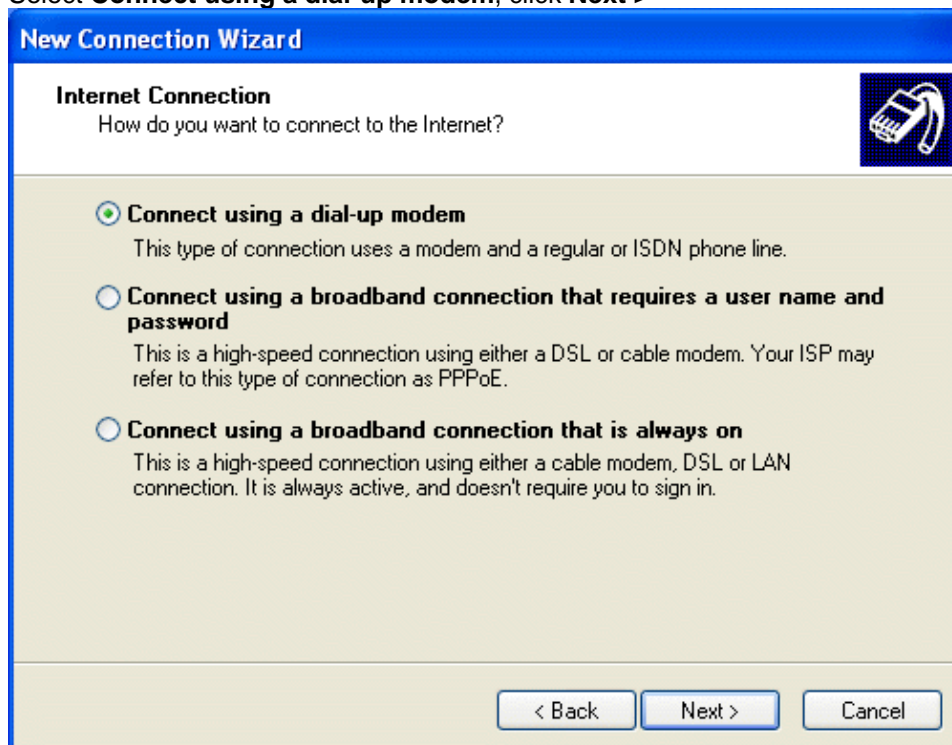

7. Select **Set up my connection manually**, click **Next >**

The screenshot shows the 'New Connection Wizard' dialog box. The title bar reads 'New Connection Wizard'. The main heading is 'Getting Ready' with a sub-heading 'The wizard is preparing to set up your Internet connection.' and a modem icon. The question is 'How do you want to connect to the Internet?'. There are three radio button options: 'Choose from a list of Internet service providers (ISPs)', 'Set up my connection manually' (which is selected), and 'Use the CD I got from an ISP'. Below the options are three buttons: '< Back', 'Next >', and 'Cancel'.

8. Select **Connect using a dial-up modem**, click **Next >**

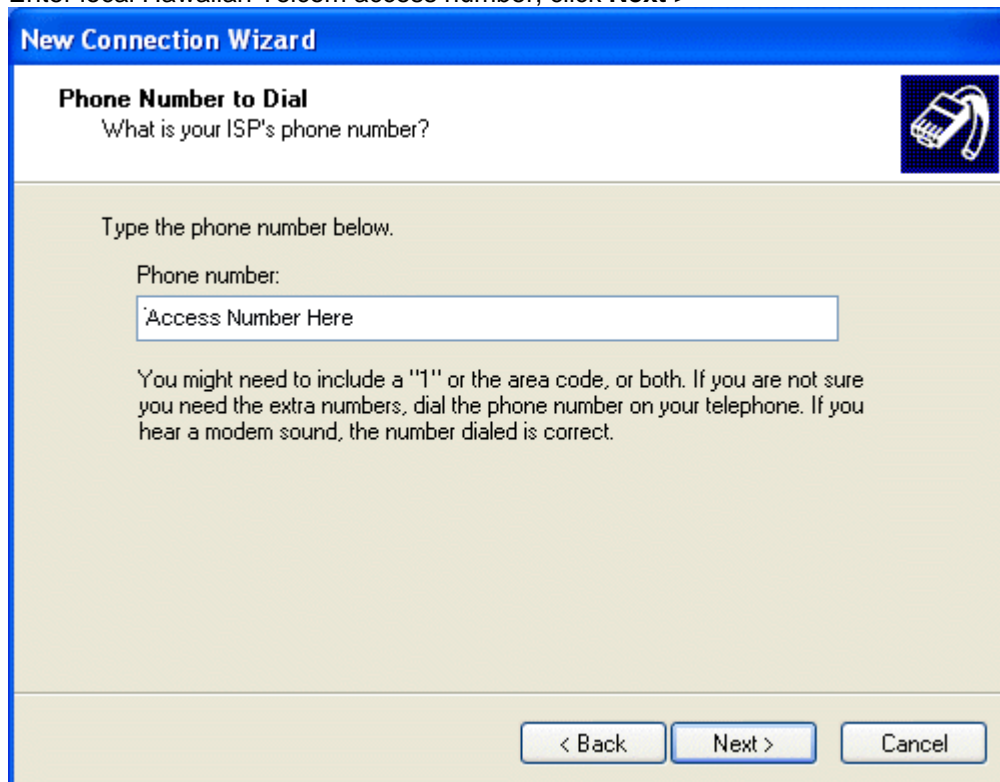

The screenshot shows the 'New Connection Wizard' dialog box. The title bar reads 'New Connection Wizard'. The main heading is 'Internet Connection' with a sub-heading 'How do you want to connect to the Internet?' and a modem icon. There are three radio button options: 'Connect using a dial-up modem' (which is selected), 'Connect using a broadband connection that requires a user name and password', and 'Connect using a broadband connection that is always on'. Each option has a brief description. Below the options are three buttons: '< Back', 'Next >', and 'Cancel'.

9. Enter a *Hawaiian Telcom* for the **ISP Name**, click **Next >**

The screenshot shows the 'New Connection Wizard' window with the 'Connection Name' step. The title bar reads 'New Connection Wizard'. Below the title bar, the text 'Connection Name' is followed by the question 'What is the name of the service that provides your Internet connection?'. A small icon of a modem is in the top right corner. The main area contains the instruction 'Type the name of your ISP in the following box.' followed by 'ISP Name' and a text input field containing 'HawaiianTel Com Online'. Below the input field, it says 'The name you type here will be the name of the connection you are creating.' At the bottom, there are three buttons: '< Back', 'Next >', and 'Cancel'.

10. Enter local Hawaiian Telcom access number, click **Next >**

The screenshot shows the 'New Connection Wizard' window with the 'Phone Number to Dial' step. The title bar reads 'New Connection Wizard'. Below the title bar, the text 'Phone Number to Dial' is followed by the question 'What is your ISP's phone number?'. A small icon of a modem is in the top right corner. The main area contains the instruction 'Type the phone number below.' followed by 'Phone number:' and a text input field containing 'Access Number Here'. Below the input field, it says 'You might need to include a "1" or the area code, or both. If you are not sure you need the extra numbers, dial the phone number on your telephone. If you hear a modem sound, the number dialed is correct.' At the bottom, there are three buttons: '< Back', 'Next >', and 'Cancel'.

11. Enter the User name (full @hawaiiantel.net email address) and Password. Confirm the password in the **Confirm password** field. Leave the defaults checked. Click **Next >**

New Connection Wizard

Internet Account Information
You will need an account name and password to sign in to your Internet account.

Type an ISP account name and password, then write down this information and store it in a safe place. (If you have forgotten an existing account name or password, contact your ISP.)

User name:

Password:

Confirm password:

Use this account name and password when anyone connects to the Internet from this computer

Make this the default Internet connection

Turn on Internet Connection Firewall for this connection

< Back Next > Cancel

12. Click **Finish**

New Connection Wizard

Completing the New Connection Wizard

You have successfully completed the steps needed to create the following connection:

HawaiianTel Com Online

- Make this the default connection
- This connection is firewalled
- Share with all users of this computer
- Use the same user name & password for everyone

The connection will be saved in the Network Connections folder.

Add a shortcut to this connection to my desktop

To create the connection and close this wizard, click Finish.

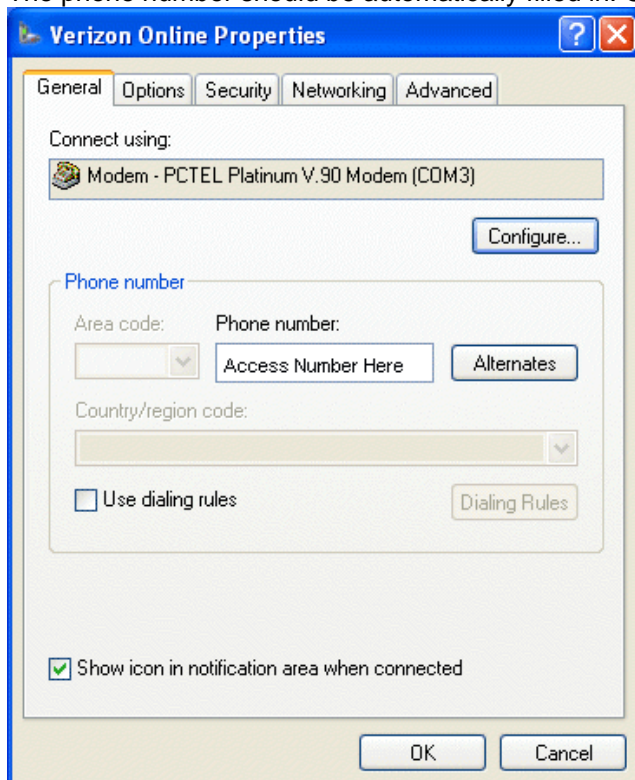

< Back Finish Cancel

Note: You can check **Add a shortcut to this connection to my desktop** to place a shortcut to this connection on the desktop

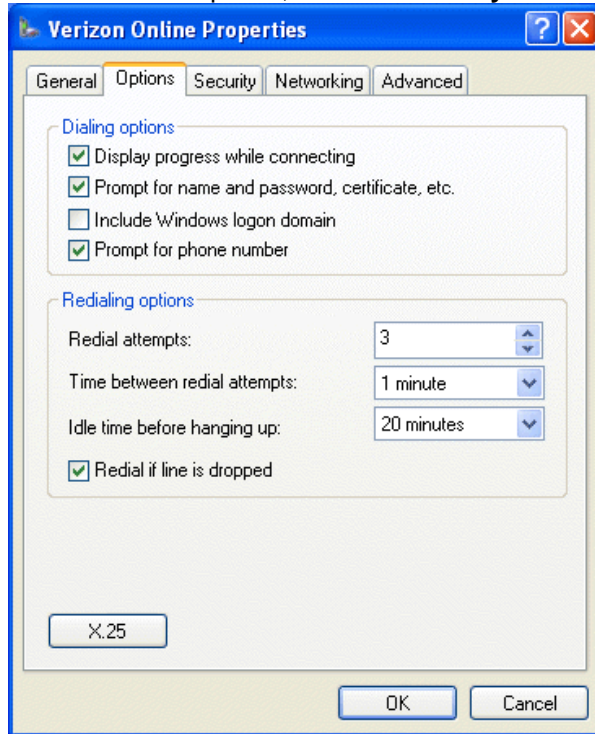

13. Double click the **Hawaiian Telcom** connection icon
14. The User name is filled in automatically. Check **Save this user name and password for the following users** and select **Anyone who uses this computer**. Click **Properties**

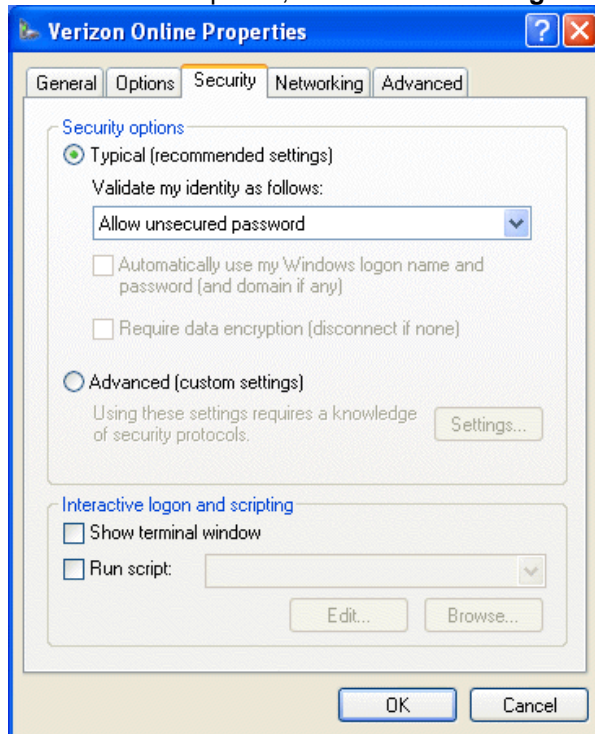

15. The phone number should be automatically filled in. Click the **Options** tab

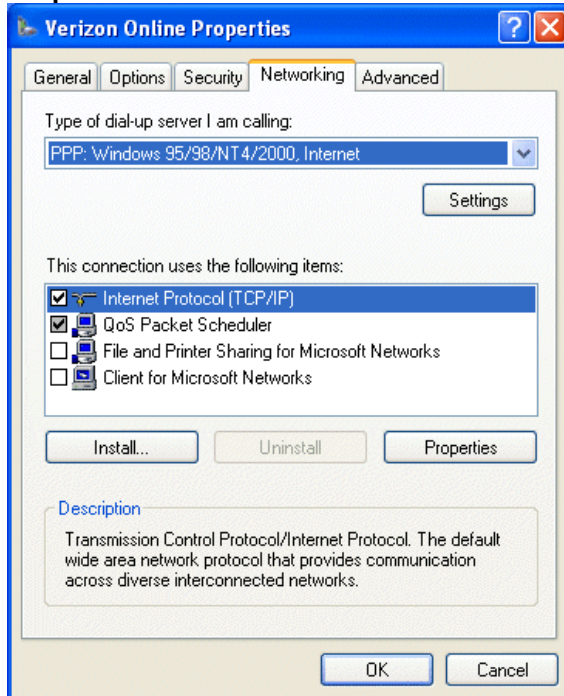

16. Use the default options, click the **Security** tab

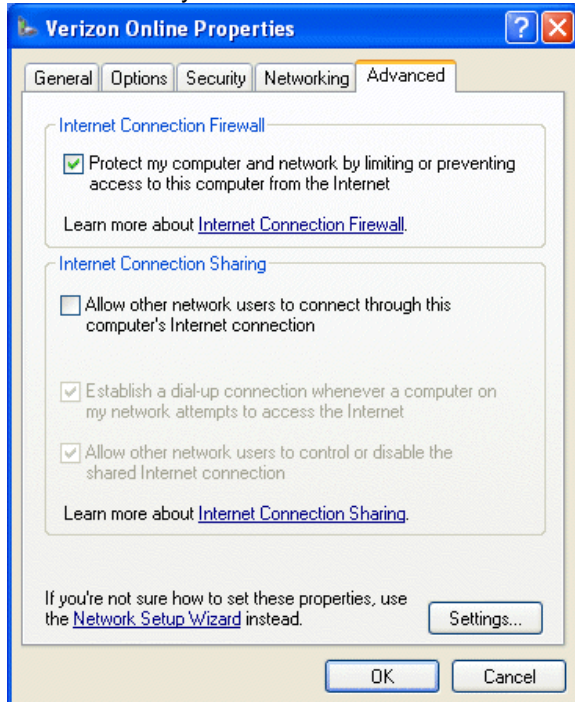

17. Use the default options, click the **Networking** tab

18. Verify that **PPP: Windows 95/98/NT4/2000, Internet** is chosen as the **Type of dial-up server I am calling**. **Internet Protocol (TCP/IP)** should be checked. Select **Internet Protocol (TCP/IP)** and click **Properties**. Click the **Advanced** tab

19. Check **Protect my computer and network by limiting or preventing access to this computer from the Internet** if you wish to use Windows XP's built-in firewall, click **OK** and close all windows
