

Business Voice Essentials

Reliable phone and data — whenever, wherever

Using our local cloud infrastructure, this unified communications service allows you to connect and collaborate with customers and employees. Make your business more efficient, while saving money!

Benefits

- **Productivity:** Improve daily operations by enhancing your communication capabilities.
- **Simple:** Single bill with one flat monthly charge per user, and no technology experience needed.
- **Scalable:** Add or remove users as your business scales.
- **Control:** Access your online portal to make updates to your phone features and view call detail reports.

What's Included?

- **Hosted Voice:** Unlimited local and long-distance calling, and individual phone numbers for each user.
- **Advanced Features:** Voicemail-to-Email, Call Forwarding, Hunt Groups and more.
- **Disaster Recovery:** Automatically routes calls to alternate number in disaster scenarios.

Plus: Add Business Voice Anywhere for an elevated mobile experience with additional features and integrations.
