For Text to Speech settings for the entire set top box see Device Settings Below

For a short cut to Closed Captioning, Screen Reader (audible guide), and Secondary Audio, long press the 'i' button on the remote. The sub menu will appear on the bottom of the screen

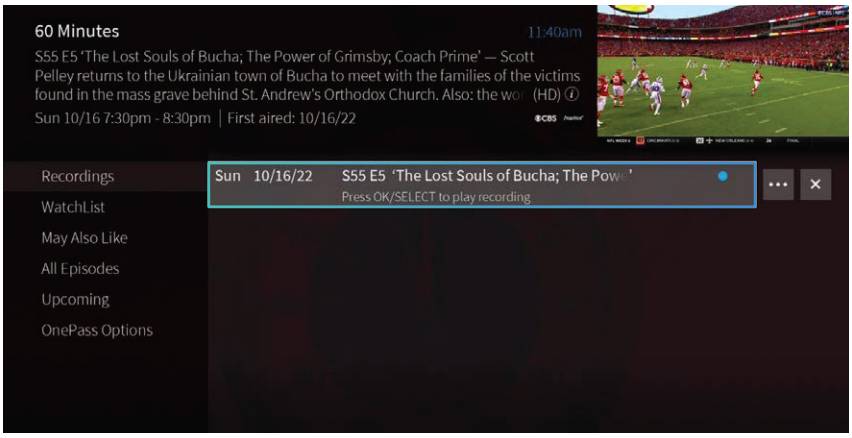

OnePass Manager

Modify or Delete currently set up **OnePass** recordings, see upcoming OnePass recordings, see all recorded shows list, and similar shows to those with OnePass set up

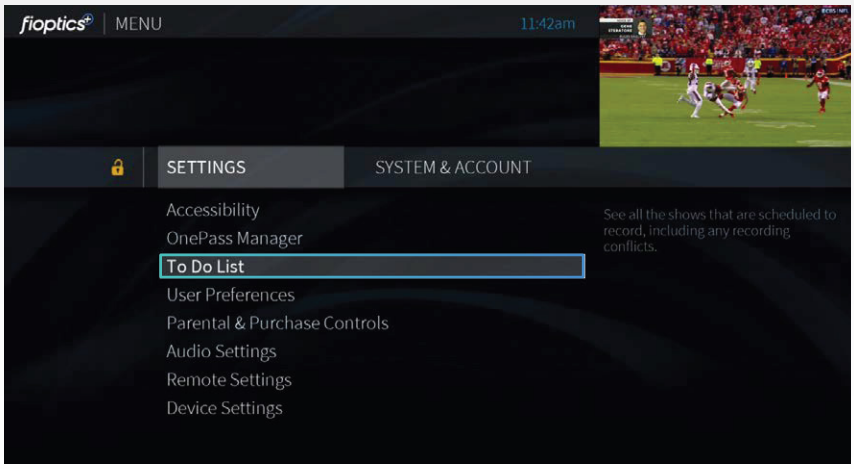

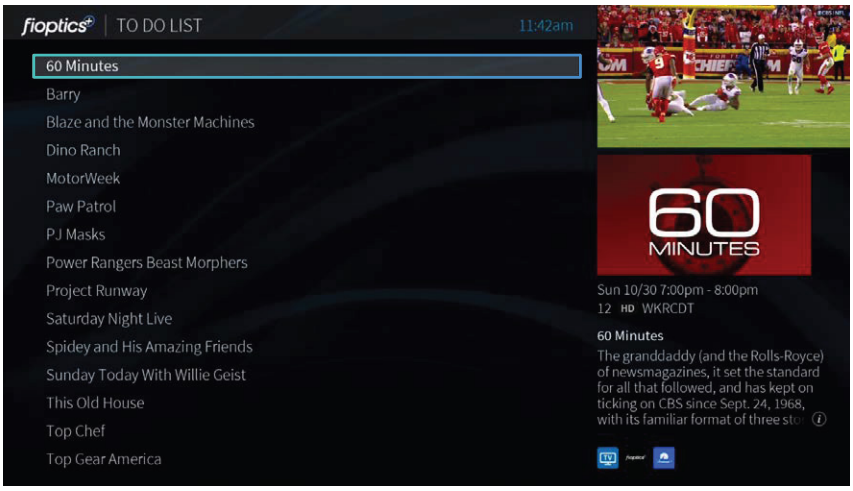

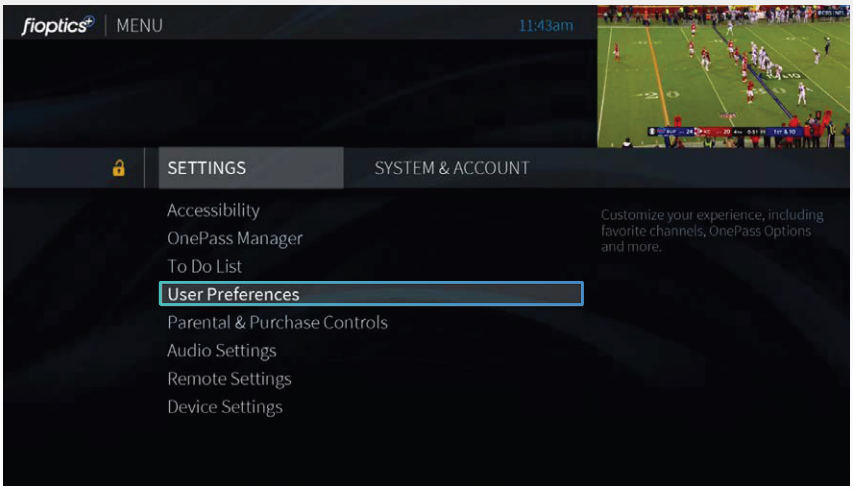

To Do List

List of shows with pending recording actions

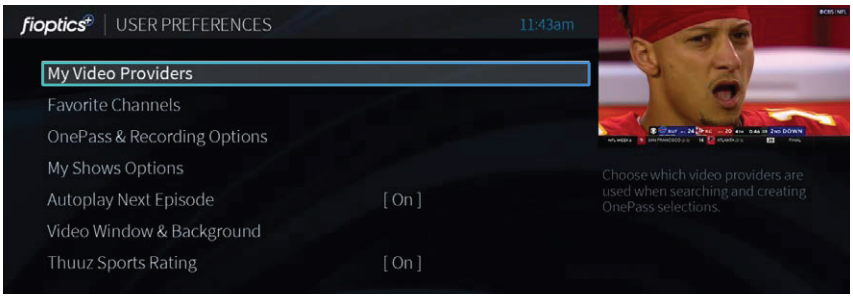

User Preferences

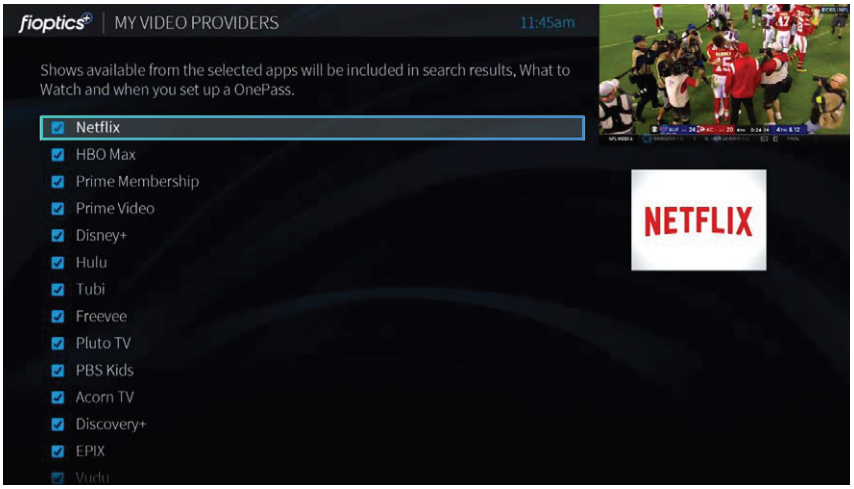

Manage list of My Video Providers to search into from compatible streaming video providers, select your favorite channels to create your custom favorites channel list, choose the default OnePass recording options, select how you'd like you My Shows to be sorted (by date, or name), managed Autoplay Next Episode options, mange Video in menu background options, manage settings to Extend Live Recordings, and manage Thuzz Ratings.

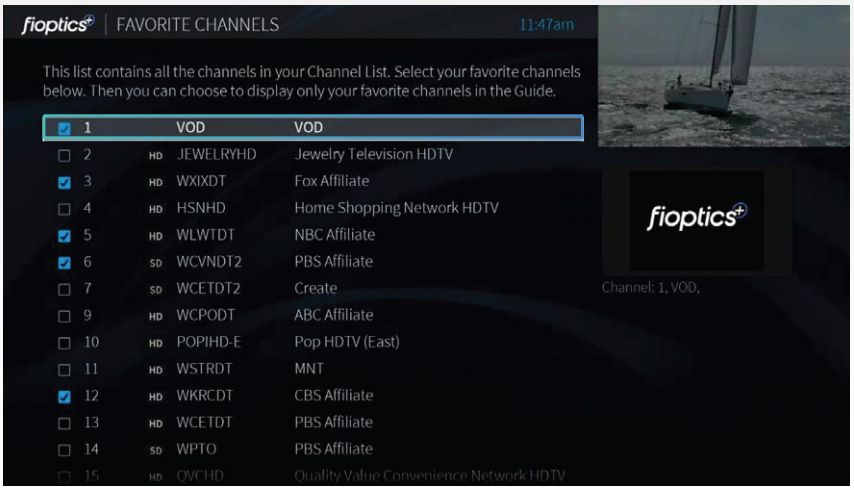

My Video Providers:

Choose which video providers (like Netflix) are used when searching or creating a OnePass.

• Favorite Channels:

View your list of favorite channels.

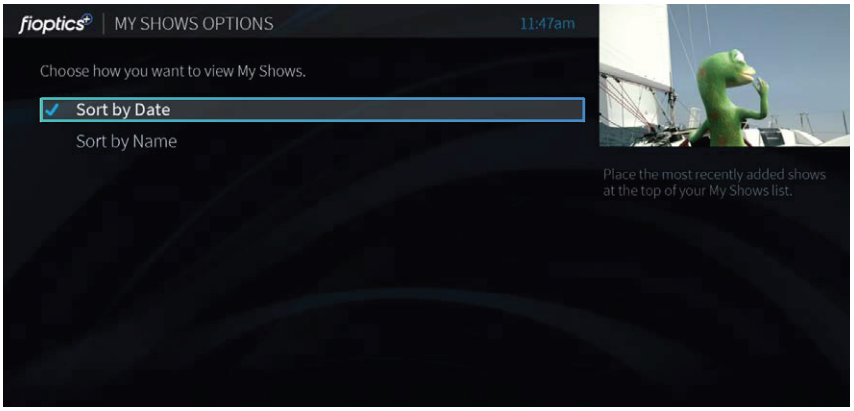

• OnePass & Recording Options:

Set default OnePass and recording options to ease OnePass recording set up.

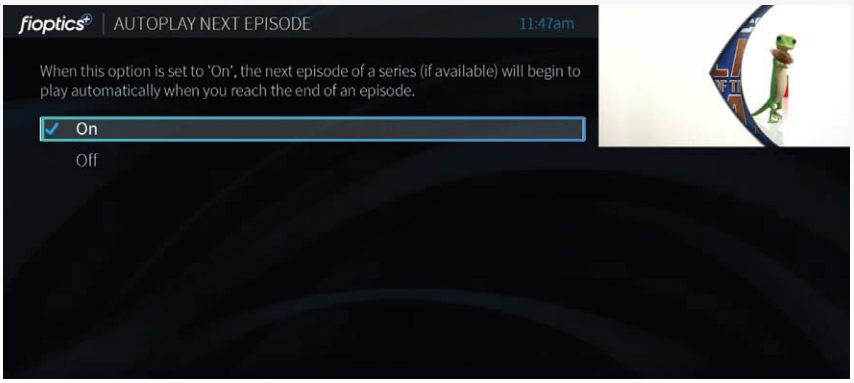

• My Shows Options:

Choose how to sort your My Shows catalog, by date or by Name.

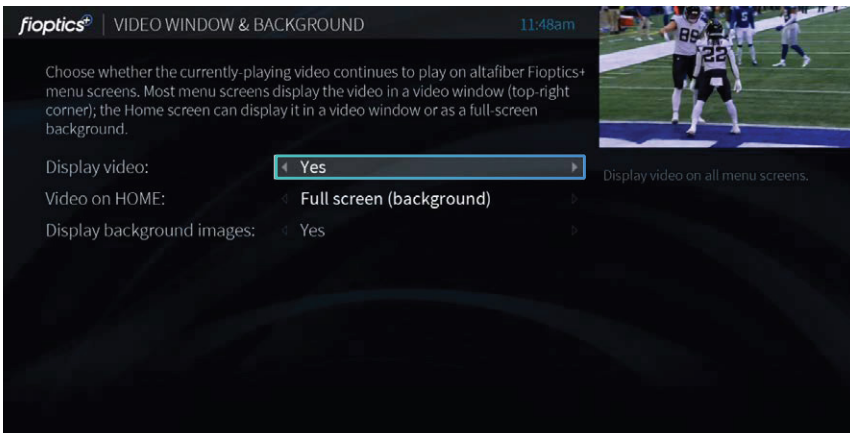

• Autoplay Next Episode:

Choose whether to allow the next recorded episode in a series to begin playing automatically when the current one ends. If you turn this option off the countdown will no longer appear, and you will need to select **PLAY** in the **Auto Play** panel to start the next episode.

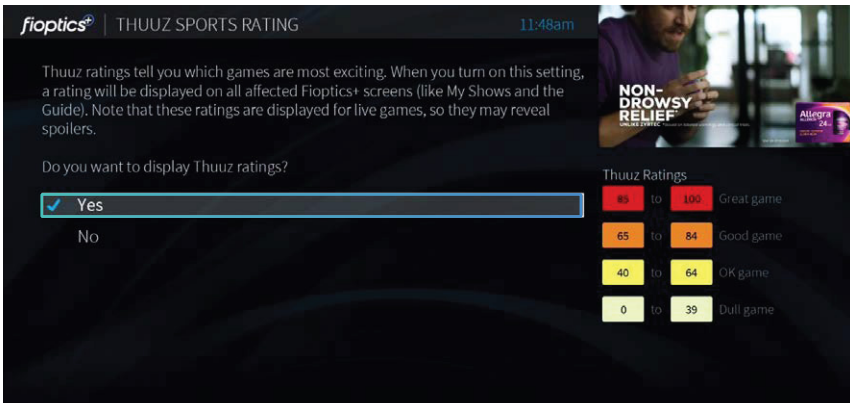

• Video Window & Background:

See **Video window & background**

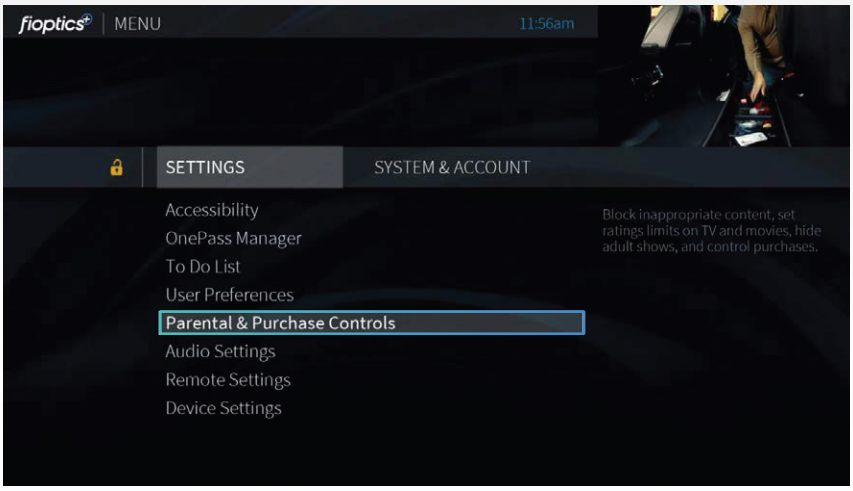

• Thuuz Sports Ratings:

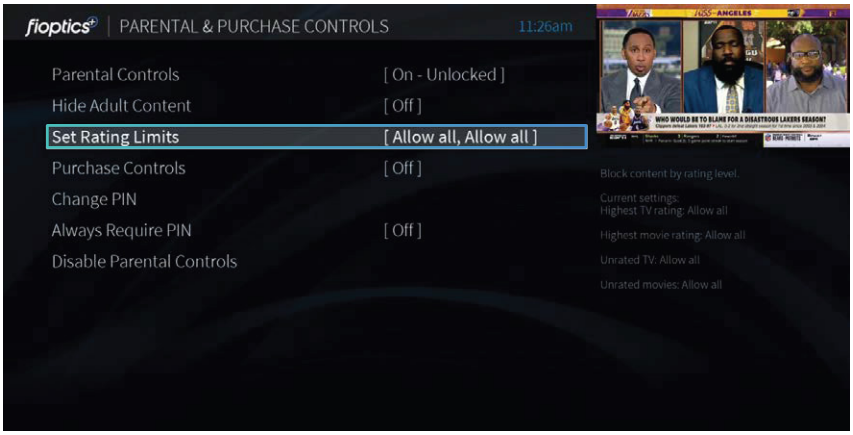

Choose whether to display **Thuuz** excitement ratings for sporting events.

Parental & Purchase Controls

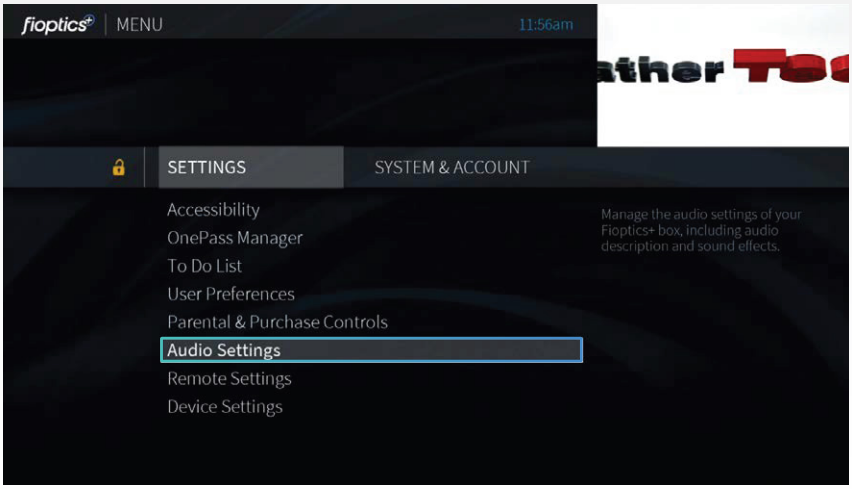

Lock or unlock **Parental Controls**, Hide Adult Content, Set Ratings Limits, Purchase Controls, Change Parental Controls PIN, and Disable Parental Controls

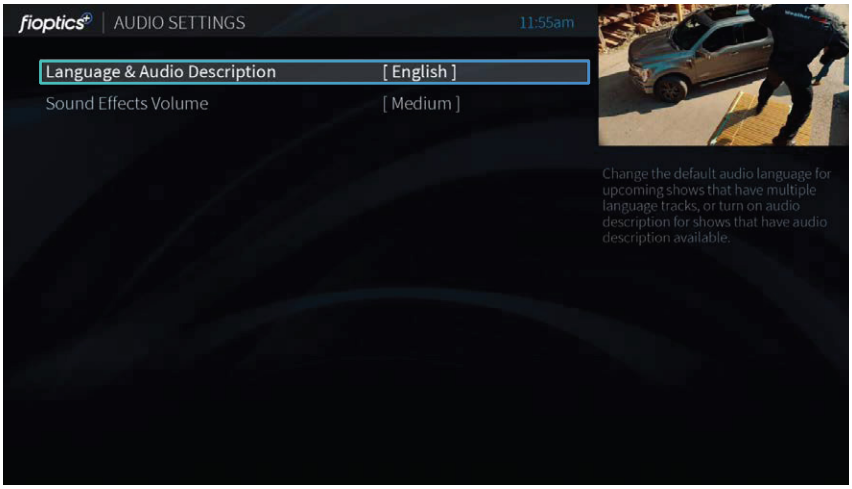

Audio Settings
